**Marimekko**  
 art of print making since 1951

Marimekko is a Finnish design house celebrated worldwide for its original prints and colours. Founded in 1951 by a visionary woman Armi Ratia, Marimekko is said to be one of the world's first real lifestyle brands combining fashion, bags and accessories as well as home decoration into one unique point of view.

The heart and soul of Marimekko's print design is our own textile printing factory in Helsinki where the bold prints and colours come to life. More than one million metres of fabric are printed at the factory every year.
