About Iceee

I am a quiet person and sometimes so goofyyy.
I like to drive, and I remember directions very well.
I love nature and hiking. But when I walk for 10 minutes, I'm tired already...

Ma-No Hiking

Campaign Identity

(2020)

I created this project based on typography at the beginning of the covid situation. I miss hiking a lot. So I thought of it as a project for health. Invite people to hike, and I hope I can go back to walk so sooon. But unfortunately, a year passed, it still hasn't happened. It's still a myth.

The warm sumbine on your face, the sound of the wind rushing through the tree workers, and, and see the control of the trail under boots.

The warm sumbine on your face, the sound of the wind rushing through the tree workers, and so the control rushing through the tree workers. As the control of the trail under boots.

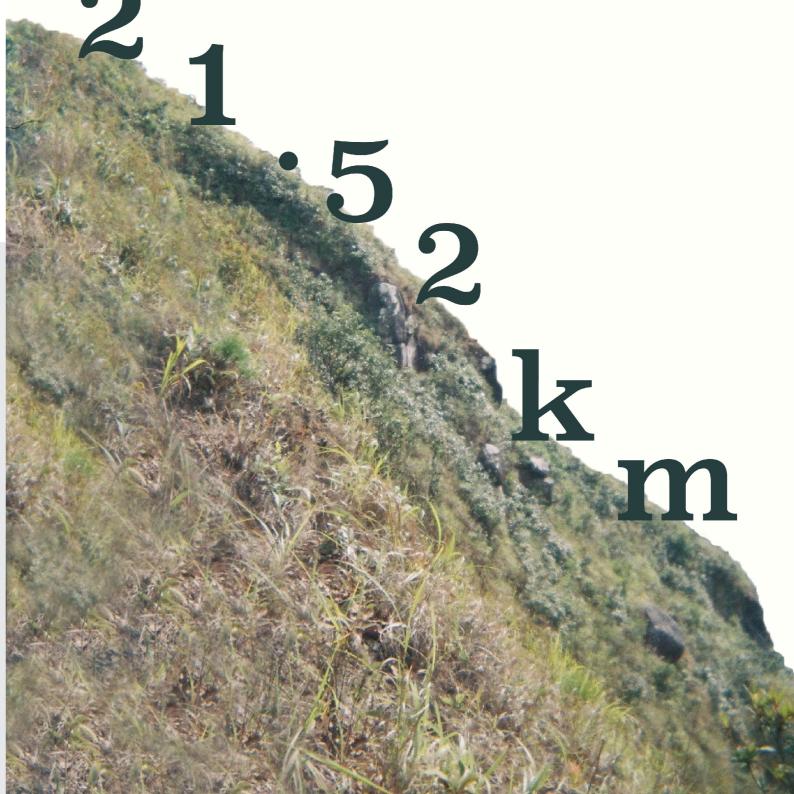

The warm sumbine on your face, the sound of the wind rushing through the tree workers. As the control of the trail under boots. The warm sumbine on your face, the sound of the wind rushing through the tree workers. As the control of the wind rushing through the tree work on the first problems. Whether you find yourself extrambling up a step incline path, thing in our national parks is perfect opportunity to get a work out. Being in nature can boost your mood and improve mental health.

Apple Lovers

Information Design

(2020) 42x59.4cm

What could be bad about this symbol of good health? If apples are consumed in excess, strange things start to happen to your body. This graphic emonstrates the effects of eating too many apples. And the symptoms that occur are caused by which substance in the apple.

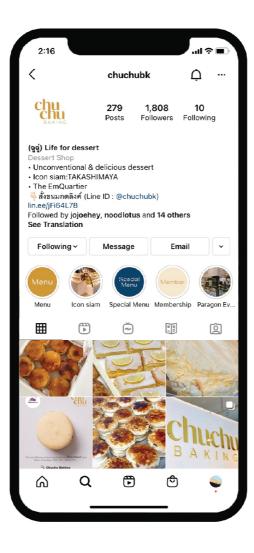

chuchu

Branding Identity

(2021)

Chuchu means pretty woman in Chinese, and this shop sells sweets, so chuchu baking represents a sweet shop made by a beautiful owner. Besides that, the dessert itself is a French dessert that feels luxurious and expensive.

sea of fog that can see in 360 degrees, is fog along the line with the complex mountainside. There is a fog to see all year round, no need to wait for the winter. Hiking in Kunungsilipat can travel for a day by going up to see the sea of fog in the morning by choosing to stay at Betong District. Or to stay overnight, there is a tent area about 200 meters from the viewpoint, and it is a private service where they provide tents, sleeping bags, and foodservice. Or you can prepare your food, but there is no electricity. And there is no water to bath, only light and a place to poopoo. The route up to see the sea of

Kunungsilipat, a spectacular view of the fog is an off-road route, unable to use a private car. Must use a tour service of the owner of the area to pick up. There are two choices of routes to choose from. The first route, km 21, is for those who do not like to walk a lot. It takes 20 minutes by car from the entrance to the starting point, then a further 700 meters on foot. It is the steepest in the last 200 meters that you have to climb on the rocky peak and have a rope to catch and walk to the viewpoint. This route is easy and quite convenient. Route 2 is Km.28 for the adventurers who like to hike by taking a four-wheel-drive car for about 3 km and walking for another 2 km. This route is more suitable for overnight and more fun.

WHAT THE DOT?!

Board Game

(2020) 15x15x3.5cm

a mind challenging game and calculation cards to find creativity through communication skills with your partner. The game to check your partner's relationship. How much do you understand each other? Split into pairs. Each round rules depends on the dice of actions which will create difficulties for communication between the pair.

AndriaInstallation

(2020)

Andria (Invisible Cities) was built so artfully that every street follows a planet's orbit, and the building and the places of community life repeat the order of the constellation. The day on earth and the nights in the sky reflect each other and the city's life flow calmly. To create a structure that allows the audience to morph into the different realm, experience and enjoy the space-like atmosphere with the reflection of shadow in different colours like nebula explosion and the details of the city.

Thai Pinky Pleats

(2021)

The Thai dress that was folded by pleats method. The folding is flexible enough to make a set. Rarely do we see Thai's outfits that are so flashy. Therefore, I intend to use pink colour to make Thai costumes look exotic and not monotonous.

Long-Loy Photography

(2019) Nikon FM2 35mm

I use FM2 to capture the most comfortable moments in my life. I spent a month travelling in the UK. I always use natural moments, Calm moments, and the flow of people's lives to take a photo. The photo made me feel calm and relaxed, representing my self very well.
