Final Project

Story book for children: Boon Long in the City

I'm very proud of my final project with my friends.
Because this work is the first storybook that my friend
and I wrote and drew with intention. It is a children's story
and can be scanned into AR. Will come up as a story with
moving images and sound for interest.

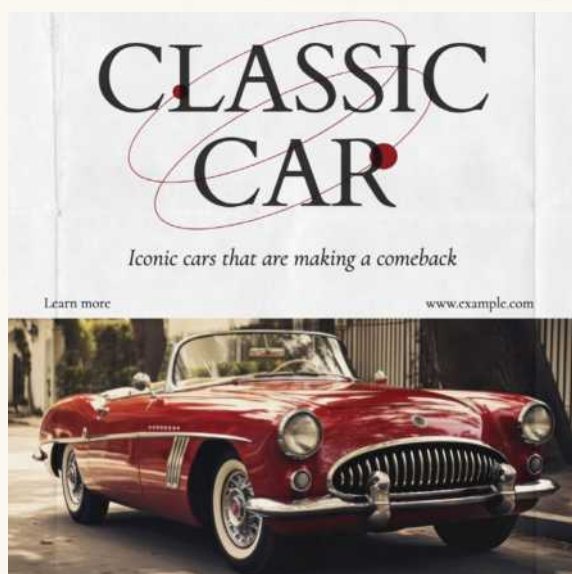

Illustration drawing work

Create logo

Create templates

Create poster template

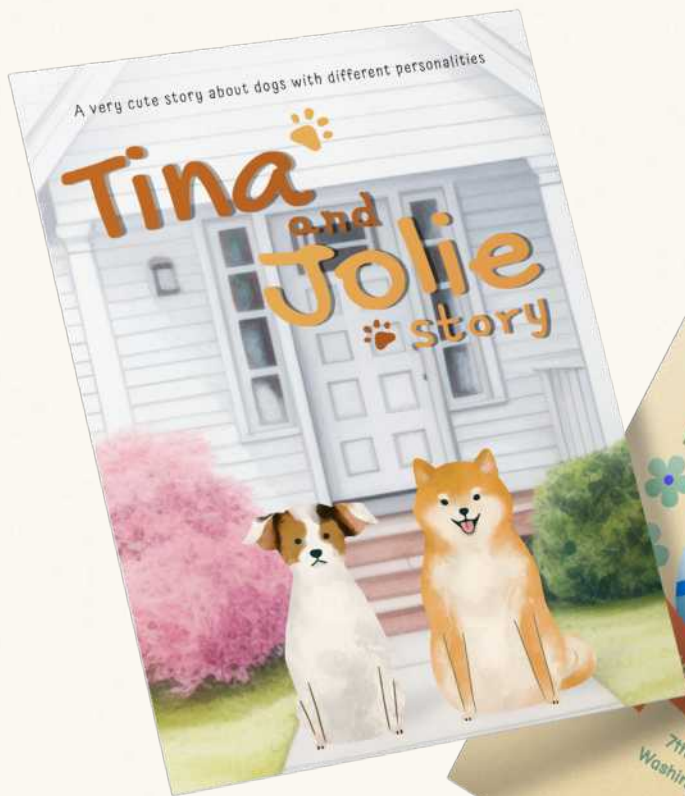

I create a template and create new copytext to match the concept.

Ai remix

Bring together AI images to create new elements.

THANKYOU

looking forward to connect with you
