## INTERIOR DESIGNER

I graduated with a Bachelor's degree from the Faculty of Architecture in interior Architecture. I have experience in interior design for ten years. In 2013 , I started my first experience at an interior design company in a position of interior designer , responsible for the design and interior works. After two years, I joined a furniture design and distributing company as an interior designer for eight years. I was responsible for the design works and advising on furniture and decorative material selection and props. I have skills and capability in using design programs for 2d drawing and 3d rendering for interior and exterior design, presentations, and material boards. I have an interest in materials for design work and an affection for interior stylist job.
