hello

Portfolio

I am a graphic designer who likes clean and simple design. I focus on small details and try to make my work clear and easy to understand. Most of my projects are for brands social media and layouts.

I am still learning but I always do my best in every project. I enjoy trying new ideas and different styles. Design is something I love and I like creating things that look nice and feel right.

01

Project 01

Designed for a fashion and lifestyle studio. Created visuals for tote bags, t-shirts, and social media. Focused on soft colors and clean layout to match the brand's calm and minimal style.
