UX/UI DESIGNER

Non Woonbamrung

Hello, I am
Non Woonbamrung

Bē Non Woonbamrung

086-338-6769

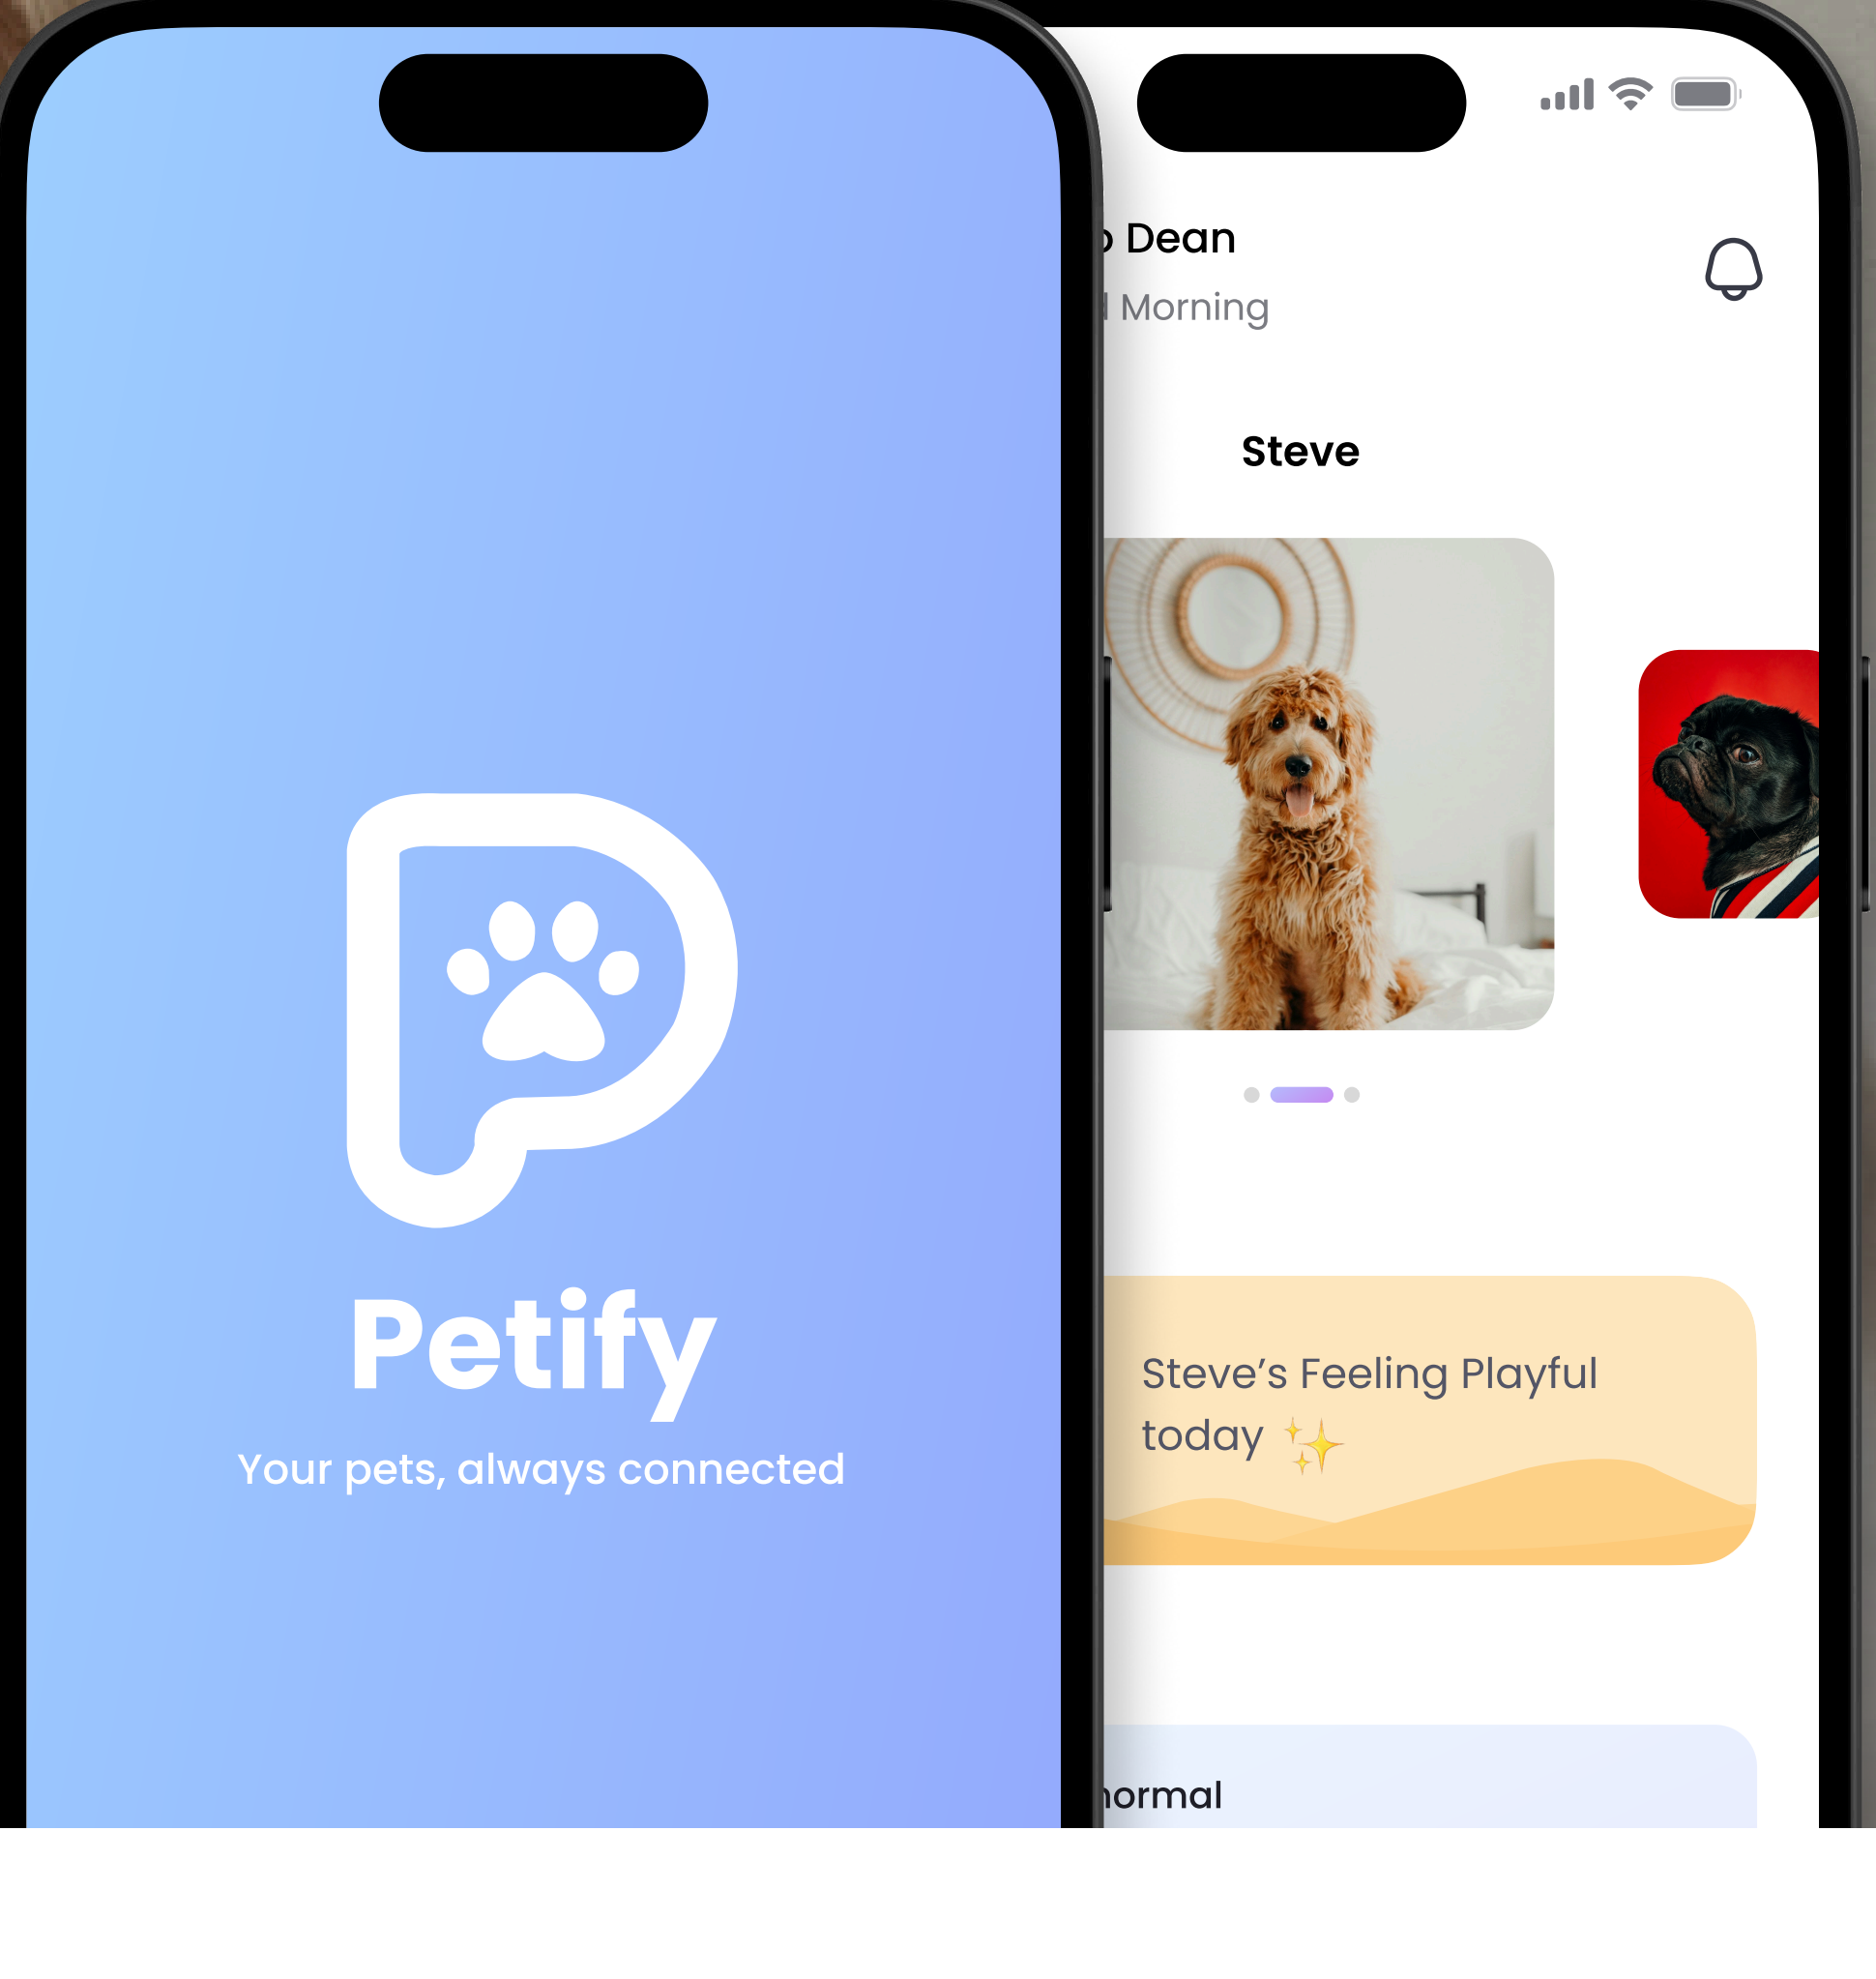

Nonmistyy@gmail.com

I'm a UX/UI Designer with a background in visual design and hands-on experience in user research, wireframing, prototyping, and interface design using Figma. I focus on creating intuitive digital experiences while balancing both user needs and business goals. I believe UX/UI design is not just about creating visually appealing screens, but about designing meaningful solutions that solve real problems and create value for both users and products.

Currently, I'm expanding my knowledge in front-end development fundamentals to collaborate more effectively with developers and better understand the technical constraints and perspectives behind product development.
